Swedish Lapland

Welcome to the heart of Swedish Lapland. Many exotic experiences await you in a new, exciting and unfamiliar region. Several cultures, nationalities and languages meet here. We live close to nature, and are influenced by four distinct seasons. Spring, when the light returns and nature wakes up; summer, with its constant daylight and Midnight Sun; autumn with all its colours; and winter, bringing the dark and bitter cold, snow that crunches underfoot and the Northern Lights dancing across the sky. There are sparse regions, but closeness between people. A destination of contrasts.

Your winter week here will be memorable, filled with exciting, exhilarating and exotic adventures - or calm and relaxing. The choice is yours - why not combine? You will have the chance to leave your tracks in untouched snow, walking, skiing or at full speed on a snowmobile, dogsled or on a sleigh drawn by tame reindeer. Put your feet up at the fire somewhere in the forest or in the sauna in the hotel. Design your own week exactly as you want it to be, and we promise that your stay will be a memory of a lifetime.

We look forward to seeing you!
